

Work Inclusion Network
WIN at the DSAV Center for Success

The Down Syndrome Association of the Valley fosters an environment where individuals with Down syndrome are afforded every opportunity to learn skills, increase learning and promote their abilities. Through our awareness programs and advocacy campaigns we strive to educate our communities on the unique skill sets and talents of those with Down syndrome.

We continually pursue avenues to best help individuals utilize their abilities and help them to focus on self-improvement and growth while preparing to be an active participant in a fully inclusive society.

Following receipt of the registration information, we will work to match the individual skills and interests with a volunteer position with a potential employer. Once the volunteer program has been successfully completed, efforts will be established to help with job placement or post-secondary option.

Contact the DSAV at 330-726-3728 or email info@dsav.org for more details.
