### You will learn:

- ➔ How to teach a visual learner to read in 10 minutes a day!
- ➔ That this program works very well with individuals of all ages with **Down syndrome, autism, dyslexia, or other learning disabilities.**
- ➔ Common reasons why children may currently be struggling with reading.
- ➔ How to create flashcards to teach reading using the whole-word approach.
- ➔ How to teach your child to progress from reading single words to couplets, phrases, sentences and books
- ➔ How to implement a fun reading program that *works* for you and your child

### Benefits of using eReadingPro with individuals of **ALL** ages are:

- Teaches reading
- Improves vocabulary
- Improves articulation
- Develops grammar skills & ability to form sentences
- Improves reading fluency AND reading comprehension

### About the Speaker

Denise MacDonald is the founder and creator of eReadingPro, and it is her dream is that all children learn to read before they begin school, regardless of developmental differences.

Through workshops, speaking engagements, personal outreach, this exceptional program has touched thousands of lives worldwide in just six years. Denise has presented at the National Down Syndrome Congress, the World Down Syndrome Congress, and hundreds of individual workshops internationally. eReadingPro was created in 2004 using all of the existing research on how children with Down syndrome learn to read!

This engaging workshop provides parents and educators with the tools they need to give children the greatest gift ever - the gift of learning to read.
